

High Performance Transmission Slip Yokes

Neapco / Sonnax takes slip yokes to a new level by offering the industry's first affordable, high-quality performance yokes - a winning combination you won't find anywhere else!

Forged & Precision Machined

Sonnax slip yokes are forged – not cast – for greater strength and undergo a precision machining process to guarantee exceptional balance and minimal runout.

100% Leak Tested

No need to worry about leaks. The seal plug is O.D. ground for a superior seal, and all slip yokes are air tested to 40 PSI.

Made in the USA

Slip yokes are manufactured at Sonnax's ISO-9001 manufacturing facilities in the USA. Their team of skilled engineers and craftsmen oversee the production process from start to finish, ensuring every yoke is made to exacting standards.
